◀ RAMPS

Standard aluminium threshold ramps are heavy, often slippery when wet and difficult to angle correctly. The lightweight, modular Secucare system is quick and easy to assemble and is suitable for use inside or outside. The anti-slip studs make it incredibly safe to use and it can be adjusted to fit a range of heights for both thresholds and small steps. The system is built to last - durable, UV resistant and maintenance free.

That said, it is also 95% recyclable to support ongoing sustainability. Maximum weight load: 850 kg/m²
