What makes our footwear so special?

There's wide fitting and then there's Cosyfeet!

Specially designed to fit and flatter swollen feet, our footwear is much wider, deeper and roomier than the wide-fitting footwear you'll find on the high street. We are a small, caring company with 38 years' experience of fitting swollen feet and legs.

- › Exceptionally wide, deep & roomy – but look like 'normal' shoes
- › Very adjustable – fit a range of swelling
- › Easy to get on & off swollen feet
- › Can also fit bunions, problem toes, orthotics & bandaging

WHERE QUALITY & STYLE MEETS BLISSFUL COMFORT

We believe that swollen feet should have the most comfortable, stylish footwear possible. That's why we combine the latest trends with premium materials, expert shoemaking and advanced foot comfort technology. Thanks to innovations such as our 'hidden depth' design, our footwear fits swollen feet with ease but still looks stylish and streamlined.

ENDORSED BY UK EXPERTS

Over 11,000 healthcare professionals, including podiatrists and occupational therapists, recommend Cosyfeet. We are also recognised by the Healthy Footwear Guide, a collaboration between UK footwear brands and foot health professionals.

IS COSYFEET RIGHT FOR YOU?

Cosyfeet is specially designed to fit swollen feet. Some styles can also fit bunions, problem toes and bandaging. All our footwear has the same extra roomy width fitting (6E for women and 3H for men). Don't worry if you don't know your width fitting, most of our styles are adjustable and can cope with a range of foot shapes and swelling. To put it simply, if you have swollen feet and you can't find footwear to fit, we can probably help.

DO I NEED TO TAKE CARE IF I HAVE DIABETES?

Yes. We are aware of the problems that people with diabetes may have and so we offer footwear and socks with minimal seaming. However, not all our products may be suitable for your feet, so you need to make your own judgement or ask a medical advisor. Please run your fingers inside any item before wearing, checking for anything that may harm. After buying new footwear, wear it for 30 minutes to 1 hour at first, then inspect your feet for pressure marks or irritation. A hand mirror is useful so you can examine your whole foot. Gradually build up the wearing time. For more information visit diabetes.org.uk

WHAT SIZE DO I NEED?

Most customers find that the shoe size they wore before experiencing swelling (e.g size 6) is wide and deep enough to provide the extra room they need. If we don't offer a half size in the style you want we recommend you try the smaller full size.

STRAP EXTENSIONS

If your feet are especially swollen, we can supply matching strap extensions to lengthen the straps on most touch-fastening styles. All strap extensions are £4.50 per pair (without VAT £3.75).

OUR MOST SUPPORTIVE SANDAL

This supportive sandal fits a variety of swelling as the lace adjusts right down to the toe. It works well if one foot swells more and also fits a slightly slimmer heel as it fastens high up the foot. The tongue disguises swelling and stops the laces digging in, while the cushioned footbed and lining add to the overall comfort.

COOLMAX®

Coolmax® Seam-free

These stretchy, lightweight socks use Coolmax® technology to keep feet fresh, dry and healthy. The clever fabric improves breathability and moves moisture away from the foot, so it evaporates quickly. This helps prevent odour and reduces the risk of athlete's foot, sores and blisters and keeps feet at a comfortable temperature. The soft cuff gently grips the leg while the smooth join at the toe adds to the overall comfort. Ideal for walking, exercise or feet with a tendency to sweat.

**Coolmax® Seam-free
Trainer Socks**

Lightweight and beautifully soft, this sock is supremely comfy. Coolmax® technology improves breathability and moves moisture away, so it evaporates quickly. This helps prevent odour and athlete's foot. For an excellent fit, the soft, comfort cuff gently grips so it stays on and won't disappear under your foot. The smooth toe-seam won't rub sensitive feet. Ideal for walking, exercise or feet with a tendency to sweat.
